The Director of KUHS

I have important news for you. Mr. Russell Jackson has very sadly resigned as Director of KUHS due to urgent family problems. He leaves with our warm good wishes and gratitude for his contribution to the school.

I will very temporarily fill his post for the next few weeks. Many of you know me as the founder Principal twelve years ago. I have always loved this school and kept an eye on it over the years. Now I will be here until a permanent appointment can be confirmed.

We have had many applications for the post. We narrowed it down to me very highly qualified lady from UK. We will be making an announcement shortly.

Aidan Warlow

SMS Service

Schools send important information to the parents by school SMS services. If the parents are not receiving such sms yet for the school please provide your correct mobile number to Babita Shrestha(011-490561)

Donation Program by A-Levels SQC Club

We the students of Social Quality Circle (SQC) have recently organized various social welfare programs with the help of school family. At the beginning, we collected the fund from the school staffs and interested students. later, we bought stationary items such as color books, pencils, crayons, textbooks etc, and distributed to the students of Safalta HIV Sikchya Sadan, Machhegaun, Kirtipur. As it has been known, it is the first school established for HIV

victimized children, currently with 10 children from different rural areas of the country, originally established as a home for those unfortunate children; the owner had gone through many problems to admit them in different schools in Kathmandu. But the children were not accepted for the sake of the school's reputation. In co-operation with Rotary club (Kathmandu mid- Town), we implemented the certain procedures in order to help those children for their education and livelihood. We really like to thank our school principal, teachers and students for supporting us in the program and we will be looking forward for doing such social programs in future.

Dipin Pradhan , Nison Karmacharya & Gaurav Shrestha (A-levels, A2)

Library Visit

On 30th July, 2012, we the students of class 10 headed to Tribhuvan University, Central Library, Kirtipur. We reached there at about 10.00am. We observed many books and old newspapers in the library. We learnt a lot of things there. We saw Veda, and read the newspapers of our birth dates. We had also visited Kirtipur Gumba on the way. We hope these kinds of programs will be held again in future by the school administration.

Nirwan Karki [School Captain]

Norway Cup 2012

Our long awaited trip to Norway, for Norway Cup had finally approached when we took off from Tribhuvan International Airport on 27th July 2012. As most of the parents might have already known that our school girls team had participated in Norway Cup and had been training for Norway Cup and Coca-cola Cup since 5 months the trip was 12 days long. And 5 other official parents and teachers were there with us. They were Pradip Humagain(Coach), Shova Rana Ghimire(Teacher), Sushma K.C(Teacher), Sunita Dahal(Parent), and Ahilya Bajracharya(Parent). In Norway we stayed in Tveita, Oslo. There we stayed in Tveita School which was provided to us by the Norway Cup organizer. Norway Cup is one of the biggest football festivals in the world. 53 different countries had participated and more than 30,000 people had come to attend the event. The organizer had prepared very well for the event. Our team played total 4 matches in Norway. The matches were really tough because the players were far skilled in comparison to us. Though we lost all matches the third and the fourth match was really important to us. We had the third match with the team who won the previous Norway Cup. Our girls played with great effort even if they lost. We also enjoyed there. We would really like to thank Mr. Ajay Gurung(Maternal Uncle of Appechhya Bajracharya) who helped us a lot in our trip. Though we could not bring back a cup, we still have hope that we will win Coca-Cola Cup. This program would never have succeeded if our coach hadn't brought this oppournity, if our parents and school hadn't support us and mostly is we weren't interested. So, we would heartily like to thank our coach Pradip Humagain, our parents who fully always supported the students who were always supportive. We also thank our S.L.C passed out senior players who came and played with us in Norway. We hope we still get support until Coca-Cola Cup and this time we are going to win.

Sophin Dahal[9]

A Guest Lecture by Shekhar Kharel

On the morning of day 3 we had our routine of conducting assembly. But on the assembly of 1st August we had a guest. He is a well know media person Mr. Sekhar Kharel. He had spoken about his wife, profession and how to live one's life.

He was invited to our school so that we could learn something for our general paper from the experiences he shared with us. He showed us a documentary 'December Blues' which reflected the days of Kathmandu city on the year of 2005A.D. on one hand, people were lighting candles to pay tribute to all the courageous martyrs. On the other hand, it was about how to entertain themselves.

There is no doubt that modernization is proliferating in Nepal but westernization is supressing over modernization. Lecture of Mr. Kharel made me realize that Nepalese have forgotten about their country and they are blindly following the trend of being western. This is a serious problem for Nepal which must be stopped in order to save the pride and dignity to our country and citizens
